GRIFFING NURSERIES

BEAUMONT, TEXAS

Day and Night - - Phone 2480

INDEX

Locate the family name of each variety in Alphabetical order, either Common or Botanical Name.

Cross-indexes will correct you if you looked for under botanical names or synonyms. This new System we hope will be a Time Saver to our busy Customers in looking up prices for handy reference.

This saves time finding what you want, just as easy as A, B, C's, or as listings in a Telephone book. Simply look under the family group such as "Firethorn" under F," and "Jasmine" under J, etc.

TERMS OF SALE

This Price List supercedes and cancels all outstanding prices. On account of the Defense Program, Prices and Terms of Sale are subject to change without notice because of soaring prices in labor and material costs.

PAYMENTS: All accounts are payable at Beaumont, Texas. Where credit is established 2 per cent Discount allowed for payment within 10 days, or 30 days net. 8 per cent interest charged after 30 Days.

CASH & QUANTITY DISCOUNTS

To all Landscape Men, Nurserymen and Dealers, it pays to take advantage of our Discounts:

ORDERS under \$10.00 net cash.

ORDERS from \$10.00 to \$75.00, less 5% cash and quantity discount.

ORDERS from \$75.00 to \$200.00, less 10% cash and quantity discount.

ORDERS from \$200.00 up, less 15% cash and quantity discount.

PACKING: Where stock is loaded bulk in car or truck, without tops wrapped, no charge for packing is made. Where L. C. L. or Express shipments require baling, boxing or crating, we make a charge for material and labor at cost.

SPECIMEN NURSERY STOCK: For specimen Stock above XX and XXX Quality, selected or marked in the Nurseries, will be priced according to its value.

RESERVE ORDERS: Reserve orders are accepted upon payment of 25% advance, and upon the condition that they shall be void, should injury befall the Stock, or error in count before shipment, or other causes beyond our control.

GUARANTEE: We guarantee our Stock to be well grown, true to name, properly packed and shipped according to instructions. In no case shall our liability be more than the original Invoice value. We cannot guarantee plants to live or grow after they leave our hands.

CLAIMS: Complaints properly presented will be given special attention. Any claims must be made upon receipt of shipment, or within five (5) days. Be sure to have exception for damages noted on Transportation receipt at time of delivery.

SHIPPING POINT: All prices are f.o.b. our Nurseries, and Shipments travel at the risk and expense of the Purchaser. We load trucks and Carloads at our Nurseries. Carload shipments billed from Mt. Evergreen, or Gilburg, Texas siding, adjoining our fields. Express and Less Carloads shipped from Beaumont, Texas.

PERSONAL MESSAGE

MR. GRIFFING SAYS:

"The making of our Wholesale Price List this Spring has been more difficult than usual, because of the unsettled conditions affecting prices; however we are after careful study, presenting to you this copy of our 1942 Spring and Summer Wholesale Price List as guidance on Nursery Stock we have to offer.

"There may be occasion to make some changes in these prices anytime, because Labor, Burlap, Nails and String, all of which play a major part in pricing materials, are on the increase, and rather difficult to secure.

"THE QUALITY of our NURSERY STOCK this year is most excellent, having had good rains all Summer during the growing season. The color is good, the growth is most compact and it is in excellent shape to be transplanted.

"We continue the practice of Grading our Trees and Shrubs by the American Association of Nurserymen's Standardized System of Grading, because we think it is the only fair way of grading Nursery Stock and giving our Customers a square deal. This Price List covers both XX Standard Quality and XXX Extra Heavy Quality Trees and Shrubs.

"This year we have given the approximate shipping weight of all Trees and Shrubs in this Price List, because of the urgent demand from our Customers to determine shipping costs. The weights given are for the X quality, heavier branched plants will weigh more according to the development of the top.

"The usual "GRIFFING WELCOME" awaits you, so visit us and look over our materials this Season, and let us take care of your requirements with good Quality Nursery Stock."

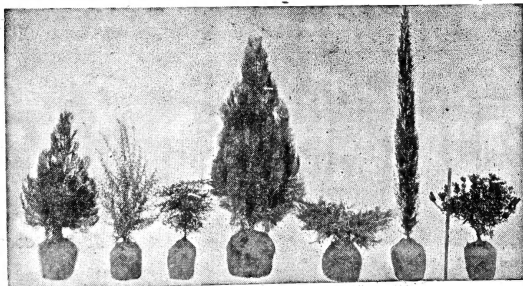

W. C. GRIFFING,
Griffing's Nurseries.

HOW WE BALL

We do not Spade the Balls Out and tie burlap around the Loosened Soil, nor do we Drive a Cylinder around to cut roots Too Short, but the Soil is Solid, never cracked and Size of Ball to conform to the Root System.

A FEATURE ABOUT GRIFFING'S B&B NURSERY STOCK YOU MUST NOT OVERLOOK

Our Great Success in transplanting Trees and Shrubs safely at all Seasons may be largely Attributed to our Wonderful Balling Soil. There is no Other Just Like it. We have the soil that is "just right" for Balling and Burlapping. The Ball is Cut out in one solid piece, often compared to Slicing a "piece of cheese. Note the solidity of the Ball in the illustration.

B&B—Ready to Plant

CAUTION

Never lift Trees and shrubs by the Top. Lift the Ball Itself by grasping it with both hands around the Ball, or Larger Balls by making a Sling of Burlap, so as not to loosen Roots in the Ball.

INDEXED PRICE LIST

ALPHABETIC LISTING

With Both Common and Scientific Names

Locate the Family name of each variety in Alphabetical order, Either Common or Botanical Name.

Cross-indexes will correct you if you looked for under botanical names or synonyms. This new System we hope will be a Time Saver to our busy Customers in looking up prices for handy reference.

This saves time finding what you want, just as easy as A, B, C's, or as listings in a Telephone book. Simply look under the family group, such as "Firethorn" under "F"; and "Jasmine" under "J", etc.

ABELIA GLOSSY—*A. Grandiflora*

Attractive Evergreen Shrub.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B.....	18 in.	35 lbs.	\$.40	\$.50
B&B.....	2 ft.	50 lbs.	.50	.75
B&B.....	3 ft.	70 lbs.	.75	.95
B&B.....	4 ft.	130 lbs.	1.20	1.70

ALGERITA—*Mahonia trifoliata*

Leaves similar to Holly. Yellow Flowers and edible berries.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B.....	18 in.	40 lbs.	\$.50	\$.70
B&B.....	2 ft.	60 lbs.	.80	1.10
B&B.....	3 ft.	100 lbs.	1.20	1.70
B&B.....	4 ft.	140 lbs.	1.80	2.25

ARBORVITAE

Thuja orientalis

There are two types of Arborvitae, which are known as Occidental and Oriental. The Occidentals are generally not suited for the Southern States, while the Orientalis or Chinese types all do well in the South. The Oriental type is also classed as "Biota," which is now unapproved.

PYRAMID (Green)

T.—Or. *Pyramidalis*

Tall-growing columnar habit. Excellent bright green color most of the season; however, frequently becomes slightly brown in winter.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B.....	4 ft.	60 lbs.	\$1.00	\$1.15
B&B.....	5 ft.	80 lbs.	1.20	1.40
B&B.....	6 ft.	140 lbs.	1.40	1.80

BERCKMAN'S GOLDEN

T. or. *aurea nana*

Compact, bushy dwarf habit. Foliage rich yellow—one of the best known Arborvitae.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B.....	18 in.	35 lbs.	.75	\$1.00
B&B.....	2 ft.	55 lbs.	1.00	1.25
B&B.....	3 ft.	80 lbs.	1.40	1.80
B&B.....	4 ft.	100 lbs.	1.80	2.10
B&B.....	5 ft.	150 lbs.	2.10	2.40

EXCELSIOR

T. or. *excelsior*

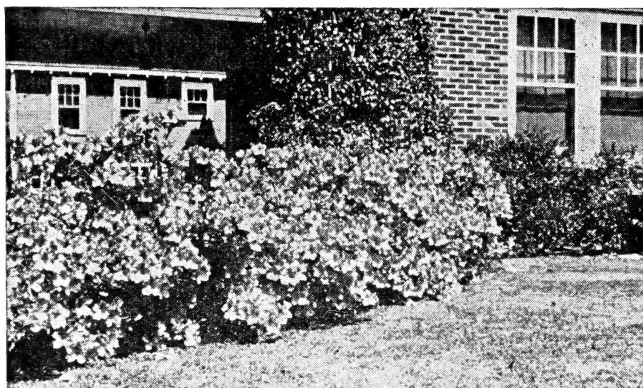

Symmetrical. Pyramidal habit, dark green color.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B.....	18 in.	30 lbs.	.45	\$.60
B&B.....	2 ft.	40 lbs.	.60	.75
B&B.....	3 ft.	60 lbs.	.75	1.00
B&B.....	4 ft.	100 lbs.	1.10	1.50
B&B.....	5 ft.	140 lbs.	1.50	2.00

ARBORVITAE—(Continued)**RAMSEY HYBRID****T. or. Ramsey' New Hort var.**

Broad at base. Cypress-like foliage. Bluish-green throughout the year. Excellent for accent specimens.

Class	Min. Ht.	Apx. Wt.	XX	XXX
B&B	5 ft.	100 lbs.	\$1.00	\$1.25
B&B	6 ft.	125 lbs.	1.25	1.75
B&B	10 ft.	300 lbs.	2.25	2.75
B&B	12 ft.	400 lbs.	3.00	4.00

Massive group of Formosa Azaleas in full bloom.

AZALEA

Azaleas which were used sparingly in Landscape plantings over a period of years, in the Southwest have come into prominent place in all types of plantings. With their Evergreen foliage, and gorgeous blooms in the early Spring Season, no planting is considered complete without them.

There are no more beautiful Flowering Shrubs than the Azaleas for the Gulf Coast area.

FORMOSA**A. indica formosana**

We recommend and grow principally the well-known, hardy indica formosa, which thrives in the open. Blooms heavy, rich Rose-Pink flowers in gorgeous array.

Class	Min. Sprd.	Apx. Wt.	XX	XXX
B&B	12 in.	40 lbs.	\$.80	\$1.00
B&B	15 in.	50 lbs.	1.00	1.25
B&B	18 in.	70 lbs.	1.25	1.65
B&B	2 ft.	100 lbs.	1.65	1.95
B&B	3 ft.	150 lbs.	1.95	2.85
B&B	4 ft.	220 lbs.	3.50	4.90
B&B	5 ft.	375 lbs.	5.00	6.90

All Azaleas require an acid soil, hence leaf-mold or Peat moss for mulching the roots should be added over the surface of the plant beds. Lime and alkali conditions of soil require special preparation with new acid soil.

NOTE—We are only pricing one variety here, but we have some of the following varieties in assorted sizes at the same price as the Formosa variety.

BRICK-DUST**A. indica brick-dust**

Low growing compact type with light orange-red flowers. A late bloomer.

DAPHNE SALMON**A. indica salmon**

Medium sized flowers, pleasing salmon coloring. Mid-season bloomer.

DIXIE**A. indica dixie**

Vigorous free grower, flowers deep Salmon pink.

ELEGANS**A. indica elegans**

Hardy, fast growing, open growth with good foliage. Free flowering with medium sized bright pink blooms.

OMURASAKI**A. indica omurasaki**

Smaller growing shrub with rose-lavender flowers in mid-season.

AZALEA—(Continued)**PHONENICA****A. indica phoenica**

Early flowering type, somewhat like Formosa but has more petals. Slow in growth but very compact shrub. Flowers Rose-pink shaded with lavender.

PRESIDENT CLAY**A. indica pres. clay**

Orange-red with purple spot at throat. Blooms early.

PRIDE OF MOBILE**A. indica pride of mobile**

Fast grower, most brilliant color blossoms of rich shell pink, blooms in mid-season.

WILLIAM BULL**A. indica Wm. Bull**

Hardy, upright grower, quite open growing bush, very double orange-red flowers in last season.

AVENUE OF AZALEAS—A gorgeous sight in full bloom.

VELVET ASH**Fraxinus velutina****(Rio Grande Ash)**

Especially suited for the Gulf Coast. Does not shed leaves in summer.

Class	Min. Ht.	Caliper	Apx. Wt.	XX	XXX
B&B ..	8 ft.	1½ in.	100 lbs.	\$1.35	\$1.60

SPECIMENS above this size will be quoted upon request.

Less for NB deduct 25% from above prices.

ASPIDISTRA—Aspidistra elatior

Dark rich green leaves, ornamental in Containers or in shady places out of doors.

Class	Min. Ht.	Apx. Wt.	XX	XXX
5-in. Pot..	18 in.	15 lbs.	\$.65	\$.90
6-in. Pot..	20 in.	20 lbs.	.95	1.40

BARBERRY**UPRIGHT HARDY BARBERRY****Berberis pyramidalis**

A rich dark green foliage, pyramidal habit, proving a most successful shrub of new selection.

Class	Min. Ht.	Apx. Wt.	XX	XXX
B&B	18 in.	40 lbs.	\$.50	\$.70
B&B	2 ft.	50 lbs.	.70	1.00
B&B	3 ft.	70 lbs.	1.00	1.40

Oklahoma City, Okla., September 28.

"During the last five years I have handled more than a hundred car loads of plant material from your nursery. Our experience has been that the balls, without exception, were good, and that the root systems were well developed so the plant could recover quickly from the shock of transplanting."

BAMBOO—Bambusa

Should be planted more, these being varieties of the non-suckering type.

ALPHONSE KARR

B. nana alphonse karri

(Golden Stem)

Attractive soft green foliage, with stems of golden yellow.

FEATHER

B. vulgaris

Strong grower. Light green feathery foliage.

NINGALA

B. arundinaria falcata

Dwarf habit. Small fern-like foliage.

SILVERSTRIPE

B. arundinaria viridistriasti

Leaves have a silver or white stripe lengthwise—stems golden yellow. Clumps balled, no burlap.

ROSA DE MONTANA (Queens Crown)

Antignon leptopus

Perrenial vine. Large heart-shaped leaves, flowers in large pink clusters in Summer.

Class	XX	XXX
From 3-in. Pots	\$.40	\$.65
From 4-in. Pots65	.90

CORNUS—See Dogwood.

CORTADERIA—See Pampas Grass.

West Palm Beach, Fla., January 12.

"The shipment by steamship arrived in excellent condition and the freight rate was surprisingly low, also crated very nicely, and we wish to take this opportunity to thank you for the way in which the entire order was handled."

CAMELLIA

JAPONICA

Camellias are sometimes called the "Aristocrats of Southern Gardens." They are easily grown in the South, and their rich, glossy foliage and colorful flowers make them unusually attractive. There are many named varieties, but not all are desirable. The flowers are produced during the mid-winter when no other flowers are found in the garden, bringing increased admiration for this plant.

NOTE—Names applied to varieties of the *Camellia japonica* are as accepted in this Trade Territory, but since they have not been adopted as Standardized, we limit our responsibility to local accepted names and identification.

ALTHEA FLORA

C. *japonica* *althaei* flora

Full peony form flower, shading from pink to white.

Class	Min. Ht.	Apx. Wt.	XX	XXX
B&B	3 ft.	125 lbs.	\$6.00	\$11.00
B&B	4 ft.	200 lbs.	10.00	15.00

BON-AMI

C. *jap* *bon-ami*

White flowers with red variegations.

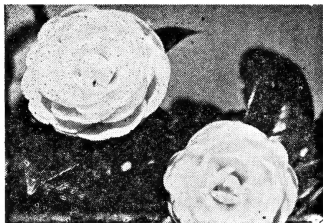

Class	Min. Ht.	Apx. Wt.	XX	XXX
B&B	2 ft.	80 lbs.	\$5.00	\$7.00

B&B.....	8 ft.	300 lbs.	2.95	4.10

"Have just received your catalog and I want to congratulate you on it. It is by far the best presentation of nursery stock, certainly of any nursery in the South, and compares favorably with anything I have seen anywhere in the country."

Chicago, Ill., January 31, 1940.

CAPE JASMINE

Gardenia

One of the most commonly known Evergreen Flowering Shrubs in the Gardens of the South. Very popular for their fragrant, white flowers. Does not like lime or alkali soils. Prefers neutral or acid soils.

DWARF SPREADING *Gardenia radicans prostrata nana*

Spreading habit. Small, pointed leaves about one-half inch wide glossy green. Miniature *Gardenia* flowers, fragrant and snowy white; blooms early in the Spring and occasionally during the Summer. Grows better in full sun, but will grow in partial shade. Used for low groups and borders.

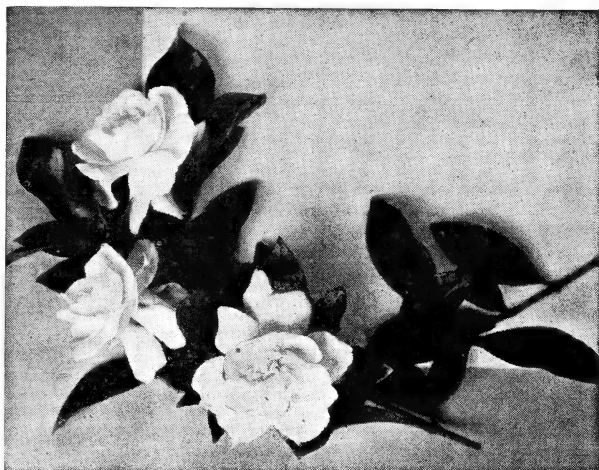

Class	Min. Sprd.	Apex. Wt.	XX	XXX
B&B	15 in.	40 lbs.	\$.45	\$.55
B&B	18 in.	65 lbs.	.60	.75
B&B	2 ft.	100 lbs.	.75	1.00

SEMI-DWARF

Gardenia stricta nana

Semi-spreading habit. Leaves, dark green, pointed, about two inches long. Flowers small, pure white, highly fragrant Will not grow in lime soil. May be grown in partial shade. Fairly hardy. Valuable for low groups or foundation plantings.

Class	Min. Sprd.	Apex. Wt.	XX	XXX
B&B	15 in.	40 lbs.	\$.45	\$.55
B&B	18 in.	50 lbs.	.60	.75
B&B	2 ft.	80 lbs.	.75	1.00
B&B	3 ft.	120 lbs.	1.30	1.90

Fragrant Gardenias

FLORIDA

Gardenia grandiflora

Very bushy habit. Dark green, glossy foliage. Large, white waxy scented blooms, produced early in the Spring only.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B	2 ft.	70 lbs.	\$.65	\$.90
B&B	3 ft.	100 lbs.	.90	1.10
B&B	4 ft.	150 lbs.	1.25	1.60
B&B	5 ft.	200 lbs.	1.60	2.00

FORTUNE (Fall Blooming type)

Gardenia fortunei

Compact, bushy habit. Dark green foliage. More hardy than the Florida. Blooms are medium size, waxy white, and sweet scented appearing in the Spring, and at intervals during the Summer. This is the variety so much in demand for the Gardens of the South, as well as in the North, when given proper protection.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B	2 ft.	70 lbs.	\$.70	\$1.00
B&B	3 ft.	100 lbs.	1.00	1.40
B&B	4 ft.	150 lbs.	1.50	1.95
B&B	5 ft.	200 lbs.	1.95	2.25

Beaumont, Texas

"I like your catalog. I like the pictures. I like the arrangement, especially the big letters for guides. I like the standard grades."

CRAPE MYRTLE

Lagerstroemia indica

We grow most of ours in Balling soil—it pays to ball them. Write on order if single stem, many stems from ground or if bushy plants are wanted.

The favorite Flowering Shrub of the South. A hardy and heavy bloomer; it paints the landscape in the summer months with its brilliant blossoms in tones of crimson, red, pink, purple, and other shades. Frequently termed the "Lilac of the South." Interplanted with evergreens, beautiful effects are obtained. Massed in groups of any size, a display of color unrivaled is had the first summer. The most generous usage and the demand of recent years indicates its great popularity.

DWARF BLUE

L. i. corrulea nana

Low spreading, lavender-blue flowers in loose panicles which almost cover the plant.

DWARF LILAC

L. i. lilac nana

Rounded top, spreading habit of growth, with pastel lilac flowers.

Prices for Dwarf Blue, Dwarf Lilac—

Less for NB—Deduct 50 per cent from above prices.

IMPERIAL PINK

L. i. rosea

The light pastel shade of this variety is excellent in many locations. Flowers are borne in very large clusters.

LAVENDER

L. i. lavendula

The flower heads are large size of clear, bright orchid-lavender—not the common dingy purple ordinarily seen.

MAGENTA

L. i. magenta

A very deep red of outstanding merit.

WEeping

L. i. prostrata

Delicate Pink. Excellent for Banking or under Window or around ends of Parkways. Measured by spread up to 5 feet.

NOTE: Those listed up to 5 ft. spread close to the ground, where those on stems branched high make an umbrella effect.

PRUNE EVERY WINTER—For best results Crape Myrtles should be cut back to one foot of the ground when planted. (By using big sizes you get better root systems.) Then every year thereafter prune them back to within 2 to 4 inches where they were the year before. In this way you get much larger flowers, thick branches, and dense foliage.

CREPE MYRTLE—(Continued)

BALLED and BURLAPED CRAPE MYRTLES transplant with unusual success from our Balling soil, to live, grow, and blossom heavy the first season. Why not give immediate effects this way? With the wide variety of colors to select from, they can be used extensively in the Landscape. B&B Crape Myrtle transplant into cold climates with success, whereas bare-rooted plants winter kill.

Interplanted with evergreens, beautiful effects are obtained. Massed in groups of any size, a display of color unrivaled is had the first summer. The most generous usage and the demand of recent years indicates its great popularity.

Griffing's Watermelon Red Crape Myrtle

WATERMELON RED (Griffing's Type) L. i. rubra

The Watermelon Red or cerise color so much desired is very pronounced in this variety. The flower heads are exceptionally large and fluffy, the color rich, clear and bright. No shrub makes such a gorgeous display in a planting as this. Our type is recognized as being the best type on the market.

ERIOBOTRYA—See Loquat.

EULALIA—See Grasses.

E LAEAGNUS

No group of Broadleaf Evergreens have grown more in favor during the past few years than the **Elaeagnus Family**. A most versatile Shrub, for foundation plantings, groups, borders or hedges. To our knowledge, **no other shrub grows better than Elaeagnus in shady locations**, as well as **in full sun**. Small white flowers, followed by small yellowish-red edible fruit.

DWARF THORNY

E. pungens nana

Semi-spreading compact habit. This variety is exceptionally good when planted under windows where it can be constantly sheared, making a wide spreading growth.

FRUITLAND

E. pungens fruitlandi

Very similar to Broadleaf, only it has more open weeping habit of growth.

ROSEDALE

E. Griffing Hor. var.

A new sport. Small leaves, upright growth, many small branches. Where used in shade for Hedges with its new bronze leaves and brownish bark makes excellent contrast color in plantings.

SIMON

E. pungens simoni

Small dark green leaves and upright growth, and when the foliage is young, it adds attractiveness to the silvery-white coloring. Preferred by some for back-ground planting or a tall narrow hedge.

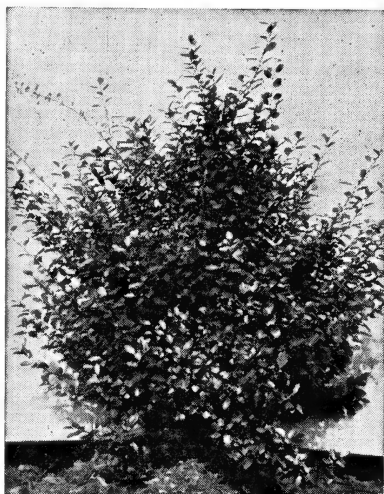

Prices for: Dwarf Thorny, Fruitland, Rosedale and Simon:

Class	Min. Ht.	Apex. Wt.	XX	XXX

B&B.....	5 ft.	200 lbs.	2.25	2.80

NOTE—All Elaeagnus Cutting Grown.

ELAEAGNUS—(Continued)**USEFUL FOR HEDGES**

Most hedge materials fail to thrive in shade, yet often hedges are required under Shade Trees as well as in the open sun. Most satisfactory for this purpose has proved the *Elaeagnus* which seems to care not a bit whether it is called upon to grow in the bright sun or dense shade.

ELAEAGNUS—Griffing's compact "dense to ground" BROADLEAF

E. pungens macrophylla

Leaves are large and pointed, upright grower, one of the best large fast growing types to be planted in the back-ground of groups

GRIFFING'S COMPACT***E. Griffing Hor. var.***

New and unusual variety, a sport of the *Fruitlandi* discovered by us in 1934. Preferred to all other varieties of *Elaeagnus* by many customers and Landscape men because of its close compact, attractive growth. Semi-spreading compact habit, leaves of medium size and quantities of small branches make it very attractive and good for clipped hedges or Specimen plants.

Class	Min. Ht.	Apex. Wt.	XX	XXX

Grown in 4	in. pots.....	.50	.90

FIRETHORN

Pyracantha

Sometimes called "Crataegus" and "Evergreen Hawthorn." A family of plants of the greatest beauty in masses against foundations, along borders etc.; graceful branches, **Brilliant winter berries**. The berries cling till spring, when attractive **white flowers** take their place. Blooming at the same time as Spirea, (Bridalwreath) and most attractive, so that the plant always has some Beauty in addition to its green foliage.

The larger sizes require large balls and severe pruning.

GROWN FROM CUTTINGS

GLORIOSA

Pyracantha gloriosa

Upright Spreading habit, Bright orange-Red berries form in large clusters.

LALAND

Pyracantha coccinea lalandi

Upright grower, Orange colored berries.

SCARLET

Pyracantha yunnanensis

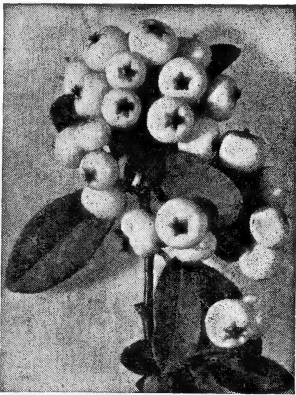

Bushy habit. Orange-red berries. These are allowed to grow natural and spread each way.

YUNNAN

Pyracantha yunnanensis

Spreading habit, coral-red berries.

B&B.....	2 ft.	40 lbs.	\$.40	\$.60
B&B.....	3 ft.	55 lbs.	.60	.90

HOLLY-Ilex

There are many kinds of Hollies, some make Trees, others shrubs—all are valued for their berries. However, all the Trees or plants do not bear berries. Pistillate ones will bear if Staminate ones are grown close to them.

The Hollies are beautiful plants at all times, some varieties making large trees, and others small compact shrubs. Being clothed in hard, shiny, irregularly formed foliage, they hold their own among other Trees and Shrubs but in Winter, when loaded with beautiful berries, they are the glory of the garden. The Hollies are adapted to many uses—as individual specimens, in groups, foundation and border plantings, and formal clipped hedges. The Yaupons grow readily in the shade, and are not affected with heat or drouth conditions.

AMERICAN HOLLY

Ilex opaca

Tall, pyramidal growth with horizontal branches. Large, rounded, glossy dark green leaves with spines. Bears masses of bright red berries in winter. Grows both in shady locations, and in full sun. Thrives best in sandy loam soil. This is the beautiful Holly used for holiday decorations. In addition to this, it is worthy of far more attention from Landscape Gardener than it usually receives.

A native of the Eastern and Southern States. We list only Staminate or Non-Berried plants below. Berried plants can be obtained from 6 ft. size and up add 50 per cent.

Red Berries Attract Attention

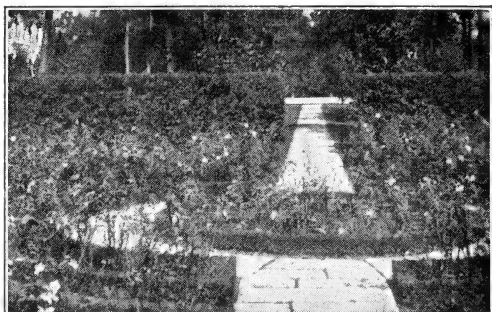

YAUPON HOLLY**Ilex vomitoria**

This is undoubtedly the best of the native shrubs. It can be kept sheared resembling the fine-leaved Boxwood. Nursery grown, root pruned, balled from our Beaumont Balling Soil. Compact growth, highly improved over those grown in the woods. We have sheared some into Globes Cones, Squares and Pyramids. We also grow blocks for Hedge Purposes and constantly headed back while small makes low compact hedges to start with. Umbrella shaped trees or compact bushy shrubs. The finest shrubs for compact hedges, sheared or unsheared. The young stems are light brown, turning to a light gray. The leaves are small, lustrous green above, and paler beneath, and cling from two to three years. The transparent red berries are very outstanding. This variety of Holly grows in all soils, and in shady locations, or in the open sun. Makes the best Evergreen Hedge. Also, useful as specimens, screens, accents in foundation plantings; in fact, anywhere in the Landscape Planting. They can be pruned to any shape or size, and with but little work, look well at all seasons. Immune from all known kinds of insects and fungus diseases.

HOLLY—(Continued)**YAUPON HOLLY****Natural Type****BERRY BEARING—Pistillate—Female**

The natural growth types have only had the long side branches sheared when young, causing them to take a center shape with many uniform branches.

Valley City, North Dakota, February 27, 1936.

"It is a wonderful thing to have carried through for Fifty Years and have served your section. You people not only have a wonderful nursery but a fine reputation and I am sure you have a host of monuments all over the South."

JUNIPERS

Juniperus

This is a large family. It covers the group of Conifers. From these you can get most any color, shape and size tree or shrub you need

CANNART REDCEDAR

J. virginiana cannarti

Finest block of Cannart in the South, grafted on the Southern Type Redcedar understock. Pyramidal habit, broad at base, tapering to slender top. Irregularly branched in natural growth, with dark green cedar-like foliage. Withstands all weather conditions. The dark green tufted foliage gives a twisted effect that makes it distinctive from the cedar family. Cannarts are used in the finest gardens.

MAGNOLIA

The Magnolia family consists of the Magnolia grandiflora so commonly known in the South. Then there are the deciduous Magnolias, some blooming before the leaves come out in the Spring, while others bloom during the Summer. There are also several varieties of the Cucumber Magnolia which make large leaves and flowers. We offer several of these varieties, and especially the large leaf Southern Magnolia which should be planted extensively in the Southern States.

SOUTHERN MAGNOLIA

M. grandiflora

The finest Evergreen shade tree of the South. White Fragrant flowers.

OAKS - *Quercus*

Nursery grown Live Oak Trees live and thrive under all conditions when the Trees have been root-pruned and properly Balled from the right kind of balling soil and pruned properly as they are dug.

PLANT EVERGREEN OAKS

Live Oaks are rapidly becoming the most popular Shade Tree in the South, because they are evergreen, and because they make such a shapely tree for any purpose they may be used. Our **Spanish type of Live Oaks** are the fastest growing variety, but even then it takes **Several years** for a small tree to grow large enough to give shade. There is nothing more beautiful than the true "Spanish" Live Oak. This type has thick dark green, oblong, pointed leaves that glisten in the sunlight, the under side being a grayish-green color.

Fast Growing Evergreen Spanish Live Oak

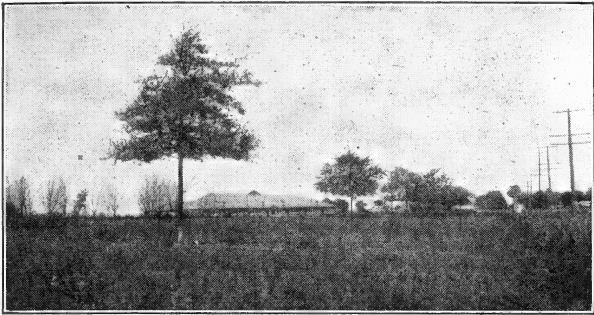

LIVE OAK (Spanish Type) *Quercus virginiana*

We have the complete stock from Acorns gathered in Florida from the choicest insulated groves in existence, so there is not a chance of hybridizing. This true type of fast-growing Oaks are destined to revise the idea that Live Oaks are a slow growing tree, much different from the ordinary native Live Oak in Louisiana and Texas, which we call the **Scrub Live Oak**, but takes too long to grow. Always clean, rich foliage. Very straight bodies. From young seedlings we trim to single stem in center, not allowing forks even on our 20 foot trees. In centuries to come these forked trees may split open and ruin the tree.

Our **Live Oaks** have been regularly root pruned, and grown in our **black heavy** Beaumont Balling Soil, they have a **compact root system**, which makes the transplanting of them more expensive but much more **successful** than forest-grown collected trees.

Experimental reports have been made by Experiment stations after several years of study on suitability of soils for growing Live Oak trees. The tests show that they will grow on any kind of soil equally as well as on another, whereas deciduous Oaks can only be grown on sour soil.

These Trees were properly pruned—Notice how the top branches have developed by the second year.

NATIVE TYPE LIVE OAK

Q. virginiana

Nursery grown and root pruned, but slow growing native type, more irregular in shape of growth.

Class	Min. Ht.	Min. Clpr.	Apx. Wt.	XX	XXX

DECIDUOUS OAKS

PIN OAK

Quercus palustris

Symmetrical tree with large forked leaves fading to scarlet in fall. This is the true Pin Oak grown throughout the Northern States.

WATER OAK

Quercus nigra

Partly evergreen, upright branches. Leaves 2½ in. wide—narrow at base.

WILLOW OAK

Quercus phellos

Upright uniform, weeping heads. Willow shaped leaves.

PALMS

Palms

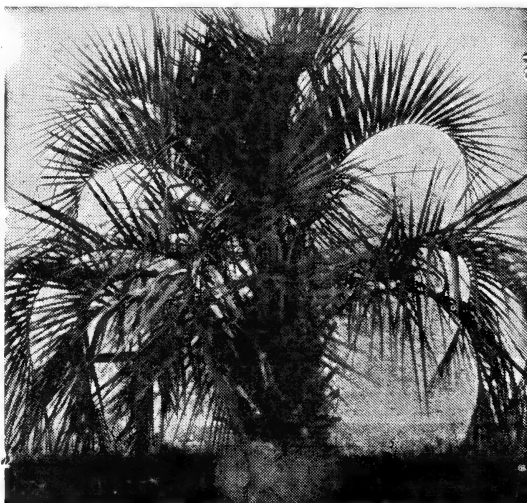

By selecting hardy varieties which we offer below, they can be planted a hundred miles from the Gulf. They should be planted extensively, as Northern visitors look for the distinctive tropical effect Palms make in our Southland.

BLACKBURN PALMETTO Palm Sabal Blackburniana

Fan-shaped leaves, brown trunk; hardest of all Palms, can stand almost zero temperature.

Class	Min. Ht.	Min. Clpr.	Apx. Wt.	XX	XXX
B&B	2 ft.	1½ in.	40 lbs.	1.00	\$1.30

PODOCARPUS

One of our most attractive trees or shrubs. The fruit is very peculiar, as it has a blue stem with a red ball at the end. Can be planted at the water's edge without injury from salt sprays. One of the most versatile trees grown, for borders and groups, or in individual specimens.

Specimen Podocarpus (Yew) as used most important plantings

BROADLEAF YEW

Podocarpus macrophylla

Beautiful evergreen, upright branching shrub or small tree. Rather broad leaves, light green when young, dark green when mature.

LITTLELEAF YEW

Podocarpus Microphylla

Similar to macrophylla, except bush is more compact in form, and more slender growth; leaves are more narrow, and are green from youth to maturity.

B&B.....	7 ft.	290 lbs.	7.20	9.80

Wichita Falls, Texas
May 13, 1941.

"We believe these are the most beautiful live oaks we have seen. The residents in Country Club Estates Subdivision have the same opinion of the trees which we have. If these trees do well this summer and fall, we will be able to give you an order for approximately 500 trees of this size, four and five inch caliper pruned to one trunk, to be delivered during the months of January and February, 1942.

"The other live oak trees which have been furnished from your nursery two and three years ago have done exceptionally well. As an experiment we set out a certain number of gathered forest grown trees about the same size as those purchased from your nursery. The trees secured from the Griffing Nursery have out-stripped considerably the other live oak trees. The trees furnished by others are infected with scale. We have not found any scale on the trees purchased from you.

PRIVET

Ligustrum

This is another large family with various shaped leaves, branches and color, etc. Largely used throughout the South. All varieties have masses of white flowers followed with black berries.

BLACKLEAF

L. lucidum nigrafolium

Distinct black-green foliage. Most hardy of the Ligustrum group; very thick and glossy shrub.

CRINKLYLEAF

L. lucidum recurvifolium

A descriptive name from its twisted or crinkly leaves. Its long arching branches with dark green foliage makes it very attractive; much hardier than most of the lucidum types.

Class	Min. Ht.	Apx. Wt.	XX	XXX

Field of Griffing's Waxleaf Privet

NEPAL PRIVET

L. nepalense

Small round, dark green leaf, dwarf in habit.

VARIEGATED NEPAL

L. luc. nepalense var.

Low bushy growth, green leaves with slight variegation of yellow in margin.

QUIHOU

Ligustrum quihoui

Upright habit, small grayish-green leaves. Blooms throughout the season; not affected by nematode.

Class	Min. Ht.	Apx. Wt.	XX	XXX
B&B.	2 ft.	40 lbs.	\$.40	\$.60
B&B.	3 ft.	80 lbs.	.60	.80
B&B.	4 ft.	100 lbs.	.80	1.10

GRACEFUL

L. lucidum gracilis

Branches gracefully recurved, dark green foliage.

PYRAMID

L. lucidum pyramidalis

Pyramid form, leaves growing upward on the stem. Tall, narrow, broadleaved Evergreen.

UPRIGHT

L. lucidum erecta

All branches grow in upright position, resembling Waxleaf.

YELLOWLEAF

L. japonicum aureaefolium

A tall grower with large yellow leaves.

REDCEDAR—See Junipers.

ROSA-de-Montana—See Coral Vines.

ROSES

We have two varieties to take the place of Everblooming Flowering Shrubs, for Hedges, or in low groups.

AZALEA ROSE

Flowers much larger than the usual Baby Roses. Clusters large on good strong stems, growing about 2 ft. high. A free and vigorous grower and abundant bloomer. Color, a bright rose pink.

LOUIS PHILIPPE ROSE

The foliage is always bright and green. The bush is a very strong grower of bushy habit and with bright red flowers, hanging in clusters over the bush at all seasons of the year, it is one of the best flowering shrubs that can be planted.

ZEBRA GRASS—See Grasses.

McPherson, Kansas, November 9.

"Want to thank you for the splendid stock shipped us and the way this car was packed and the stock dug. Everything came in the best of shape and we are very much pleased with the shipment."

MISSED WHILE DOING HIS DUTY FOR UNCLE SAM

While our Mr. Ralph C. Griffing is serving active duty in the U. S. Army, we are trying to carry on with our usual service in the Nursery business at home.

TRANSPORTATION INFORMATION

L. C. L. or MOTOR FREIGHT takes Fourth Class, whether packed in Bales, Boxes or Crates to any point in the Southwest.

FREIGHT RATES LOWERED: There is now a New B&B Carload Freight Classification effective in all States included in the Southwestern Shipping Areas (including all the States of Texas, Arkansas, Louisiana and New Mexico; and portions of Mississippi, Alabama, Missouri and Tennessee) and possibly points beyond these limitations where the new freight rates are now in effect for this B&B Classification.

B&B CARLOAD RATES in the above Territory applies to 18,000-lb. Minimum Carloads which takes Column No. 25; and on a 30,000-lb. minimum Carloads, takes Column No. 20 rate (20 per cent of First Class).

EXAMPLES OF LOW CARLOAD RATES effective to various Cities as follows: (Column No. 20, or 30,000-lb. Minimum Carload quoted). From our Shipping Point to:

Amarillo, Texas	44c	Laredo, Texas	36c
Albuquerque, N. M.	53c	Little Rock, Arkansas ..	35c
Baton Rouge, La.	24c	Memphis, Tennessee	39c
Corpus Christi, Texas ..	30c	Monroe, Louisiana	28c
Dallas, Texas	29c	Natchez, Mississippi	28c
El Paso, Texas	53c	New Orleans, Louisiana ..	28c
Enid, Okla.	43c	Oklahoma City, Okla.	39c
Fort Worth, Texas	30c	San Antonio, Texas	29c
Galveston, Texas	16c	Shreveport, Louisiana	25c
Harlingen, Texas	36c	Tyler, Texas	24c
Houston, Texas	17c	Waco, Texas	27c
Jonesboro, Arkansas	40c	Vicksburg, Mississippi ...	31c

For other points in this Territory, ask your Local Freight Agent the Rates from Mt. Evergreen, Texas, to your City; or write us direct for it.

WEIGHTS OF B&B NURSERY STOCK

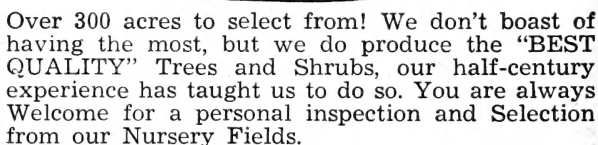

Weights given in this Price List are the approximate weights on our XX Quality of Nursery Stock, which is our Standard Quality. Weights on the XXX Heavy Quality will run about 25 per cent higher than the weights stated. Specimens, which we do not list, will oftentimes run about Fifty (50) per cent more than the XX quality. **NOTICE:** Weights are also based on the average dry soil when the plants are dug, and when extremely wet, the weights will naturally be increased.

ASSOCIATION MEMBERSHIP

To further the interest of the Nursery and Landscape Development and keep posted on affairs of interest to the Trade, we maintain membership in the following Trade Associations:

American Association of Nurserymen, Landscape Nurserymen's Association of the American Association of Nurserymen, Beaumont Florists & Nurserymen's Club, Beaumont Chamber of Commerce, Louisiana State Horticultural Association, Inc., Texas Association of Nurserymen, Texas State Florists' Association.
